Why you should join

Join the Global Alliance of Aerospace Chemical Specialists

We clearly saw the potential for robust growth throughout Europe, and with Addev Materials Aerospace & Defence (UK) well established relationships with their customers and their commitment to partner with only highly-reputable companies, we were confident that Jim and his team were the right choice.

Marcie Simpson,
Aerochemicals'
President and
Nycote Laboratories
President & COO
regarding their
exclusive European
distribution
agreement with
Addev Materials'
Aerospace &
Defence UK Division.

Aerochemicals Membership Benefits include:

Global Reach

- / Increased Online Visibility (Aerochemicals Website & Social Media Networks)
- / Monthly Newsletter
- / Advertising at Major Aerospace Exhibitions
- / Global Marketing Strategy under the Aerochemicals banner

Networking & Business Growth

- / Business Development Opportunities
- / Access to Strategic Information, Lobbying
- / Support & Collaboration between Members
- / Exclusive Events: Annual Meetings in Top Destinations around the World, Physical & Online Events

Who we are

**Created
20 years ago,
Aerochemicals is
a unique network
of privately
owned Chemical
Specialists,
all serving
the Aerospace
Industry.**

As an alliance, we deliver innovative technical solutions that cover most of the critical chemical needs of the global aerospace community, while offering the flexibility, expertise and customer care of independent companies.

Promoting innovation and support, our alliance leverages synergies, offering our members multiple layers of opportunities for cooperation, partnerships and business development.

Aerochemicals will help your business thrive and take off to a global level.

Go Global: Join Aerochemicals!

Our Specialties:

- / Surface Preparation, Treatment & Protection
- / Specialty Paints & Coatings
- / Adhesive & Sealants, Shims
- / Tapes & Films
- / Coated Fabrics & Textiles
- / Corrosion Inhibiting Compounds
- / Lubricants
- / Chemicals Custom Packaging
- / Critical Cleaning & Disinfection Solutions
- / Biosecurity, Disinsection and Personal Protection
- / Non-destructive Testing (NDT)
- / Chemical & Environmental Management Services
